

K-Love radio station serves the local community by telling of local, non-profit events in the area that would not otherwise be able to be announced. I can always keep up to date information with local events and activities that I wouldn't know where to look for otherwise. It serves our local community through its message of strength, hope, and love, letting us know that we are not alone. Music and information that I hear on K-Love is like no other station out there. If K-Love radio were displaced by LPFM broadcasters, this would sever hundreds of links across the nation that now allows listeners to talk, pray, and listen to not national news, not limiting us to our regional thoughts and ideal alone. This would be a great dis-service to those who listen to national radio such as K-Love. Ideas need to spread and people should have the right to be informed well beyond their local listening areas. As long as K-Love is serving both the local community through its ministry as well as its information, it will bring insight into communities instead of isolating the airwaves with localized stations only. Please do not take away our chance to listen to K-Love in areas by expanding LPFM stations with priority in K-Love listening areas or future areas. Thank you, Mr. & Mrs. Kowalke
